

Maintenance

Value Stream Analysis

WHAT?

We will create an improvement vision for your maintenance department. By working alongside your team, we will understand the current state of the maintenance processes, design the value stream vision and define an implementation plan to achieve the desired results.

WHO?

The workshop team should be composed of the operations managers along with the leaders of all areas that have an impact on the maintenance processes under review.

ESTIMATED BENEFITS

10-20%

increase in **overall equipment effectiveness**

30-50%

reduction in **changeover times**

HOW LONG?

We will work in intensive workshop sessions, over a period of one to two weeks, depending on the scope.

40-50%

reduction **of non-compliant products**

10-40%

reduction in **stock level** of finished products and raw materials

DELIVERABLES

- Data collection and analysis
- Value Stream Analysis introduction
 - Current State Mapping
- KAIZEN™ methodology trainings
 - Future State Vision
 - Implementation plan
- Final Report with cost-benefit analysis
