

Manufacturing Value Stream Analysis

WHAT?

We will create an improvement vision for your manufacturing value stream. By working alongside your operations team, we will understand the current state of the manufacturing processes, design the value stream vision and define an implementation plan to achieve the desired results.

WHO?

The workshop team should be composed of operations managers along with the leaders of all areas that have an impact on the manufacturing processes under review.

ESTIMATED BENEFITS

25-30%

increase in direct **labour productivity**

30-50%

reduction in **changeover times**

HOW LONG?

We will work in intensive workshop sessions, over a period of one to two weeks, depending on the scope.

40-50%

reduction of **non-compliant products**

10-40%

reduction in **stock level** of finished products and raw materials

DELIVERABLES

- Data collection and analysis
- Value Stream Analysis introduction
 - Current State Mapping
- KAIZEN™ methodology trainings
 - Future State Vision
 - Implementation plan
- Final Report with cost-benefit analysis
